Cluster 3

Cell Type: Tem/Trm cytotoxic T cells
Markers: CCL5, NKG7, B2M, GZMA, CST7, IL32, CTSW, HLA-C, GZMK, CD3D
Cluster 3 was annotated as Tem/Trm cytotoxic T cells. Key marker genes include CCL5, NKG7, B2M, GZMA, CST7. This transcriptional profile is consistent with Tem/Trm cytotoxic T cells.

Cluster 2

Cell Type: B cells
Markers: CD74, CD79A, HLA-DRA, CD79B, HLA-DPB1, HLA-DQA1, MS4A1, HLA-DRB1, HLA-DQB1, CD37
Cluster 2 was annotated as B cells. Key marker genes include CD74, CD79A, HLA-DRA, CD79B, HLA-DPB1. This transcriptional profile is consistent with B cells.

Cluster 0

Cell Type: Tcm/Naive helper T cells
Markers: LDHB, RPS12, RPS25, RPS27, RPS6, RPS14, RPS3, TPT1, CD3D, RPL31
Cluster 0 was annotated as Tcm/Naive helper T cells. Key marker genes include LDHB, RPS12, RPS25, RPS27, RPS6. This transcriptional profile is consistent with Tcm/Naive helper T cells.

Cluster 1

Cell Type: Classical monocytes
Markers: LYZ, S100A9, S100A8, CST3, TYROBP, LGALS2, FTL, LGALS1, FCN1, FTH1
Cluster 1 was annotated as Classical monocytes. Key marker genes include LYZ, S100A9, S100A8, CST3, TYROBP. This transcriptional profile is consistent with Classical monocytes.

Cluster 5

Cell Type: CD16+ NK cells
Markers: GNLY, NKG7, GZMB, CTSW, PRF1, CST7, GZMA, HLA-C, B2M, FGFBP2
Cluster 5 was annotated as CD16+ NK cells. Key marker genes include GNLY, NKG7, GZMB, CTSW, PRF1. This transcriptional profile is consistent with CD16+ NK cells.

Cluster 4

Cell Type: Non-classical monocytes
Markers: LST1, FCER1G, AIF1, COTL1, FCGR3A, FTH1, IFITM2, IFITM3, SAT1, FTL
Cluster 4 was annotated as Non-classical monocytes. Key marker genes include LST1, FCER1G, AIF1, COTL1, FCGR3A. This transcriptional profile is consistent with Non-classical monocytes.

Cluster 6

Cell Type: Megakaryocytes/platelets
Markers: GNG11, SDPR, HIST1H2AC, PF4, PPBP, SPARC, RGS18, TPM4, NRGN, CD9
Cluster 6 was annotated as Megakaryocytes/platelets. Key marker genes include GNG11, SDPR, HIST1H2AC, PF4, PPBP. This transcriptional profile is consistent with Megakaryocytes/platelets.
